CITY AND COUNTY OFFICIAL PAPER.

FRIDAY,.....APRIL 2, 1875.

THE Supreme Court of the United States has rendered a decision which will seriously affect and possibly remoddle the entire lobby business. It is that claims for lobby services are not just liabilities and cannot be collected in Courts of law. This will compel those who desire the assistance of the lobby to put up in advance.

OUR Government seems inclined to encourage the proposition to convert the Sandwich Islands into a fragment of the Uunited States. His Majesty's Kingdom is a nice little Island and a good many Americans live over there, but it strikes us that the experience of the last decade goes far to prove that we have a sufficiency of volcanic States. Why go into the middle of the Pacific Ocean to find another?

REPORTS from different portions of the country are not favorable for a large crop of small grain. The non-arrival of the anticipated Spring showers very materially reduces the crop on the mesa lands and those high localities where irrigation was impossible. The yield of small grain in this county will, however, exceed the harvest in the San Joaquin and Sacramento valleys, where, our exchanges inform us, the yield will hardly reach two-thirds of a fair crop.

A CORRESPONDENT of the San Diego *World* advocates the establishment of a ship-yard at that place for the building of ships. We meant to suggest such an enterprise for Los Angeles, but our neighbor has defeated our purpose and we must now turn to another and equally practical scheme, which is the establishment of a mammoth ice depot at Wilmington. The vast iron mines, the wide forests, the exhaustless coal beds and the magnificent bay with its broad, deep channel, of San Diego, all designate her as the natural ship-building point on the Pacific Coast; but where, we ask, can such nice, clean, fresh, cold cubes of ice be cut as in Wilmington harbor?

Increasing Travel.

The almost doubling of their facilities for accommodating the traveling public by both the SteamshipCompany and the Telegraph Stage Company, is indicative of a rapidly increasing immigration to Southern California. A few months ago the stages brought but the fewest number of passengers. Now, one stage is not sufficient and extras are run almost daily. The number of steamers has been increased one-third, yet the demand in San Francisco for passage to Los Angeles is so great as to exceed the capacity of the company's vessels, and it is probable still another steamer will be added to the line in a short time. These are facts of to-day. What shall we expect when the travel into Arizona and the mines of Inyo county sets fairly in? The Southern Pacific Railroad will soon extend beyond San Gorgonio Pass, and it will not be long before the Los Angeles and Independence road will be landing its passengers in Cajon Pass, ninety miles from the landing at Santa Monica, and nearly one-half the distance from this city to Panamint. These railroad facilities for reaching the great mining interior will draw the vast trade and travel of these sections through this city, which, compared with what we now daily chronicle, will be as a river to a rivulet.

No Judge of Democrats.

The San Francisco *Post* thinks ex-Governor HAIGHT and ex-Mayor FRANK MCCOPPEN should not be regarded as Democratic leaders. The *Post* should have stated that these gentlemen are objectionable as leaders of its Democracy. Had it made this qualification the objection would have been well taken. It cannot but be amusing to Democrats to hear the *Post* editor, who has about as clear an idea of Democracy as a police court shyster has of common law, defining who shall and who shall not be their leaders. HENRY H. HAIGHT led the Democratic party of California to victory at a time when fear and dismay spread throughout their ranks, and almost any other general would have abandoned the field without a struggle. As a Democratic Governor his administration was one of the most economical since the organization of the State. He may not have been a very rampant Democrat in a party sense, neither while Governor nor since, but he has always been a Democrat in principle—upholding that public officers are but the servants of the people, and that they are unworthy of the trust reposed in them the moment they cease to discharge their official duties as carefuily and economically as they would manage their own private business. Such men may not be good Democrats as the *Post* understands the term, but it is a pity the people have not a few more such Democrats. These remarks will also apply to FRANK MCCOPPIN, San Francisco never had a better Mayor than he made her. The people knew this. They showed their faith and confidence in him by casting a majority of their votes for his re-election, and had the officers of the election been as honest as the voters he would have held the Mayoralty for a second term. The *Post* is the only paper or individual that ever questioned FRANK MCCOPPIN'S Democracy. But the *Post* editor never was a Democrat. There is not a drop of the essence of Democracy in his composition. He is everything by turns and nothing long.

Connecticut Election.

Connecticut will hold her State election on Monday next. The campaign opened lively and has grown warmer as the day of election approaches. Since their New Hampshire success, the Republicans have felt more confident and have redoubled their efforts to win the victory. The Democrats are working steadily and are confident of increasing their majority over that of last year. Predictions as to the result cannot be entitled to more weight than mere conjecture. The parties are so nearly equal in strength that small, unimportant issues have and may again decide the contest. Up to 1866 the Republicans carried the State almost without an effort, but since that time control has alternated between the two parties. In 1868 the Republicans elected the Presidential Electors, though the Democrats had won the year previous. The Temperance party aggregates about five thousand votes. This was its strength last year. At the same election the Democrats cast 46,755 votes and the Republicans 39,973, giving the Democrats a piurality majority of nearly 2,000. The Republicans hope that the New Hampshire elections will draw into their ranks a large proportion of the Temperance voters and thus give them the victory on Monday. The signs indicate a Democratic majority; but the fight is too close to leave much room for guessing.

IRRIGATION.
NO. 2.

That each settler on the agricultural lands of the pueblo of Los Angeles shall be entitled to a *suerte* of land and the right to the Los Angeles river to irrigate the same, is embodied in the original grant foundation of this city. The area of this city embraces about 20,000 acres or more, about half of which is now imperfectly irrigated and say 5,000 that is contained in the hills Northwest of the city and the city proper itself and we have left within the limits of the city 5,000 acres of land, lying dry and waste, yet entitled to water as far as it goes; and that to more perfectly irrigate the 10,000 acres we now have and to subject our additional 5,000 acres to irrigation under the present system will, in my humble opinion and in the opinion of such intelligent and practical men as John G. Nichols and others who have given the subject years of careful study, tax our river to its utmost capacity and long before that is done many who have irrigated beyond the city limits will have to be denied that favor.

So, to sum up the whole thing, the wise founders of the "Queen of the Angels," to use a vulgar phrase, "cut their coat according to their cloth," and we have yet many lessons to learn before we obtain the practical wisdom shown in all such matters by our Spanish predecessors. They knew about how much land the river was capable of irrigating and set aside so much land for that purpose and devoted all the plains beside to pasturage.

Viewing the above suggestions as in the main correct, what are we going to do to extend our area of irrigation? In my opinion, to irrigate from th mountains to the sea, we will have do it on a grand and comprehens scale. What has been done so succ fully by the Indiana Colony—ad the piping and reservoir system. few men forming that beautiful set ment, on a capital of $50,000, $25,0 which was paid for their land, h within a year converted the most olate waste into the most beautiful attractive settlements in the cou They have, by dint of intelligent united labor, conducted their w through eleven-inch pipes three m to a cemented reservoir of 3,000 gallons capacity and have construc other reservoirs of less capacity piped each man's irrigating hea his own door, where he can thro over his house when he wishes. is what we want and will have in city, and when the reservoir sys as projected by Mr. George Hanse carried out and our water condu thence to the irrigator in pipes, can we irrigate all of the land inc inch from the Feliz ranch to the minguez hills, and can continue supply on to Wilmington if they w it; and the plains can be mad blossom as the rose from the Cah ga Pass to the beautiiul beach of S Monica, with water to spare to su the city that will there grow up the great shipping that will com carry away our produce.

Where will we get the capital t this, aggregating hundreds of th ands, if not a million of dollars? more article and I will have finished.

Decision Against Woman by the U. S. Supreme Court.

WASHINGTON, March 29th.—The U. S. Supreme Court to-day rendered a decision in the case of Minor vs. Hoppersott, error to the Supreme Court from Missouri. This is a case presenting the question whether, under the Fourteenth Amendment, a woman who is a citizen of the United States and of that State is a voter in that State, notwithstanding the provisions of the Constitution and the laws of that State confining the right of suffrage to men alone. The Court is unanimous in the opinion that the Constitution of the United States does not confer the right of suffrage upon any one, and that the Constitutions of the several States which commit that trust to men are not necessarily void. The Chief Justice delivered the opinion.

The Belligerent Miners.

HAZELTON, Pa., March 27th.—Deputy Sheriff Rhodes, with a posse fully armed, left here by a special train to-day, for the scene of the miners' troubles. Another raid was made on Yorktown to-day. The miners mostly secreted their arms on the approach of the posse. McDermott is supposed to have been shot by the rioters. He appears to have been shot by accident. The men at the Buckridge Colliery will strike to-morrow.

POTTSVILLE, Pa., March 31st.—There was a grand parade of mechanics and the Workingmen's Association this afternoon, followed by rioting. Great excitement exists. The citizens fear serious trouble to-night. To-day, between Locust Gap and the Alaska Colliery, a train of hands were stoned, fired at and driven from the train.

Outrages and Yellow Fever.

WASHINGTON, March 31st.—The President to-day received a dispatch from Governor Coke, of Texas, detailing the border outrages by Mexicans, and appealing to him to afford protection to the people. The Secretary of War, in the absence of the President, replied to the telegram, and stated that orders will be given to the military authorities to take steps for the protection of the people on the frontier.

A telegram from Key West reports that the yellow fever is spreading greatly. The United States steamer Dispatch, which conveys the Senatorial party to Mexico, was at Key West when the fever first broke out, and solicitude is felt in Washington for the excursionists.

The Ice Breaking.

WILKSBARRE, March 31st.—One of the ice gorges above here gave way this afternoon and came down the river, lodging against the gorge here, but not moving it. The water is rising and railroad travel is impeded.
LATER—The river is falling.

About the Black Hills.

CHICAGO, March 21st.—The Government is firm in its intention to exclude all of the interlopers from the Black Hills.

Foreign News.

LONDON, April 1st.—A financial calamity is feared in Berlin.

MADRID, March 31st.—The Carlists hoisted flags of truce at Reuttria and Oyarzun, and fraternized with the Government troops.

GOLD REPORT.

SAN FRANCISCO. April 1.

Gold, 114¼.
Greenbacks—Buying, 88; selling, 88½

LOCAL BREVITIES.

The Senator will sail for San Francisco to-morrow.

Heavy shipments of wool are commencing to be made.

The sale of the Woolen Mill tract commences to-day.

There were $42,807 84 in the City Treasury on the 1st of April.

The mounted police, who were discharged some time since, have been reinstated by the City Fathers.

The Senator arrived at Wilmington at 10:30 A. M. yesterday with 140 passengers and 160 tons of freight.

Mr. J. L. Ward, at No. 8 Commercial street, is buying wool at the highest ruling price.

Artesian pipe for Norwalk and Artesia has grown to be an every-day shipment from the depot.

Five tons of flour were yesterday shipped to the Surprise Valley mining district by Newmark & Co.

It is reported that the Alleghanians, a concert troupe will be here next week.

Mr. Knowlton retired from the Pico House yesterday, and that establishment is now run as a lodging house.

Madame Arabella Goddard and her agent, Mr. Chas. Williams, arrived in the city yesterday.

The Artesia land sales continue to excite a great deal of interest. The number attending the sale for the purchase of lots and plats will greatly exceed that of the first sale,

Capt. Borrowe is having a bell put on the new Babcock truck. He will doubtless tinkle the Council into a good humor by this means and secure an acceptance of the machine.

Mr. R. W. Scott was admitted to the Los Angeles bar yesterday by Judge Sepulveda. He is lately from Tennessee, where he held a license to practice in the Supreme Court.

The committee yesterday received a dispatch from Chas. N. Fox of San Francisco, announcing that he would accept the invitation to deliver an oration in this city on the occasion of Odd Fellows' anniversary celebration—the 26th inst.

We learn that Miss Jennie Leys is lying seriously ill in San Bernardino. She will not be able, therefore, to preach the funeral sermon of Miss Mary Garey next Sunday, as announced. Due notice of time of holding services will be given.

A fair-sized and very select audience assembled last evening to hear the concert of Professors Schad and Fischer. The music, both vocal and instrumental, was excellent, and those present enjoyed a rich treat. Miss Reiffarth sang "Non é ver" and several other songs with such effect as to be loudly encored. Mr. Guenette's "Judith" was earnestly applauded and others who appeared on the stage acquitted themselves to the perfect satisfaction of the audience.

Work will be commenced next week on the enlargement of the Lafayette Hotel. All of the old part of the building will be removed, and the whole raised another story. The projected improvements will cost about $30,000, and, when completed, the house will have 160 rooms. This will place the Lafayette first among the hotels of our city in the extent of its accommodations. While the improvements are being made the house will probably be closed.

We had a call yesterday from Capt. M. Kraszynski, of Lyons' Station. He brought with him some fine specimens of coal, found by his brother, A. J. Kraszynski, in the Castac district, about eighteen miles Northwest of the Station. The quality of the article seemed to be much superior to any that has heretofore been brought to our notice among the new discoveries. We hope that the Captain and his brother have struck it rich, and they certainly have, if the vein develops as well as its indications predict.

The preliminary trial of Wm. Dunn, the perpetrator of the late homicide at Spadra, came off at that place Wednesday before Justice Wright. The defense was argued by Capt. Thom of this city, and so strongly was the case fought that it lasted until 5 o'clock yesterday morning. The accused was finally released on $100 bail. Evidence of the strongest character was introduced in behalf of Dunn and the general result of the investigation is considered almost equivalent to an acquittal.

April Fools.

Our Mr. Perkins had just arisen from his nights slumber at a tolerably late hour yesterday morning and was sauntering down town in quest of a breakfast, in no enviable frame of mind. "Mister!" shouted a little urchin; "you've got a tail on behind!" Such an announcement to our Mr. Perkins was indeed startling. He thought that perhaps his handkerchief was dangling from his coat pocket astern, as handkerchiefs sometimes will; or he thought—how can we name it!—horrors! it might be worse than a handkerchief! Instinctively he turned his back to the fence, for decency's sake, and slipped his hand around by way of investigation. Then the little arch-fiend laughed and kicked up his heels and yelled, "Oh, he!—April fool! hi-o!" Mr. Perkins swore and went to breakfast,

Despite our warning to the public yesterday morning, many were taken in and done for during the day. Numberless little articles of value were picked up and dropped again in confusion by the finder. At least twenty-five gentlemen called at the United States Hotel for Mr. Hammel (who, by the way, was at Anaheim), to see about "that little piece of business." We own, with grief, that we were among the number and our exchequer was consequently reduced four bits.

But the best joke of the day was perpetrated upon the unsuspecting people on the East side of Temple block, about 4 P. M. There was a shriek—a succession of them—all heart-rending, and then the people, whose attention was by this time generally attracted, saw a maniac leap from the roof of the three-story block and fall with a thud on the hard pavement. All rushed to the spot breathless, and among the rest a sympathetic M. D., who went so far as to place his hand upon the body, lying all of a heap, when lo! the straw had burst through one side of the poor fellow.

CITY AND COUNTY OFFICIAL PAPER.

FRIDAY,.....APRIL 2, 1875.

A Sad Scene.

This morning a comely looking woman, with an infant only a few months old in her arms, was in the prisoner's dock at the Police Court, charged with drunkenness. The woman has the unfortunate habit of indulging in strong drink, and on two or three previous occasions became so outrageously drunk as to have to be taken into custody by the police. She is also the mother of a bright intelligent little girl of about nine years of age, whom she compels to visit the groceries to purchase whisky for her. This morning she had recovered from her drunken debauch and appeared to realize the disgrace she has brought upon herself and endeavored to hide her face from the rude gaze of the crowd in the court room. It was a sad scene to see that dissipated mother with her tender infant in the midst of such a congregation of dissipated sinners. It is to be hoped that she has made her last appearance in the Police Court. *S. F. Post, March 29.*

During the week ending Saturday, 79 car-loads of lumber, 50 of railroad wood and four of local wood were shipped from Truckee.

The dry-goods clerks of Sacramento are taking steps to obtain an early closing of stores two evenings a week after April 1st.

Stephen B. Elwell, a pioneer of 1849 and a resident of Sacramento ever since, died in that city on Saturday morning.

ARTESIA.

SECOND SALE!

2,000 ACRES.

Tuesday. Wednesday and Thursday,

April 6th, 7th and 8th, 1875.

The Directors of the Los Angeles Immigration and Land Co-operative Association would announce that at their late sales over 1,600 acres of land was sold; the greater part of which went to actual settlers who will improve the same at once.

Desirous of disposing of the remaining lands —nearly 2,000 acres—in order to make the settlement as strong as possible, and at the same time give the Association an opportunity to subdivide other ranches, the managers now offer at Public Auction, the remaining lands, on the 6th, 7th and 8th of April, 1875, when the purchaser will be allowed to take the lands in parcels to suit

At their own Figures. The entire tract will be sold without reserve.

A Public School building, to cost over $4,000 is now being erected and will be completed before the second sale. The percentage of the last sale devoted to the erection of this building amounted to over $2,000, and the same percentage (10 per cent. on town property and 2½ per cent. on farm property) will be given for the same purpose from the proceeds of the next sale.

Soil.

The soil is of a rich sandy loam and free from alkali. There are two or three small pieces of alkali ground on the tract, but they will be pointed out to purchasers so that they may know what they are buying. The character of the soil is more like the warm mesa lands of the country, than the low, damp corn lands.

Semi-Tropical Fruits

Will there find a combination of soil, climate and water well adapted to their rapid growth. These lands are not entirely free from frosts, but the cold is not severe enough to injure the growth of semi-tropical fruit trees, and rarely does any damage, except to the most tender vegetation.

Water.

The great desideratum of Southern California, without which the richest land is converted into a desert, and with it the desert is converted into a garden, is here easily obtained in great abundance. Surface water is found at a depth of ten or fifteen feet, and

Flowing Artesian Wells

Can be readily and SURELY obtained at a depth of from one hundred and thirty to two hundred feet. There are many flowing wells in the immediate vicinity, and within the artesian belt no failure to get flowing water has ever occurred. Responsible parties propose to sink artesian wells everywhere on the tract and guarantee water or make no charge therefor. The town of

ARTESIA

Has been laid out on the township line three miles South and three-quarters of a mile West of Norwalk Station. A quarter-section of land is included within the town plat. It is the intention to make this town the center of one of the richest farming communities in Los Angeles county. At the last sale, town lots sold for from $60 to $161 each, and many have since changed hands at advanced figures.

Arrangements are now being made for the establishment of a Methodist Episcopal Church, and the erection of a house of worship.

A lot will be given to any Church or Society that will erect thereon a buildiag for public use.

PUBLIC SALE.

These lands will be offered at Public Auction on

TUESDAY, WEDNESDAY and THURSDAY,

April 6th, 7th and 8th, 1875,

Thus affording settlers an opportunity to procure homes at THEIR OWN FIGURES.

TERMS.

The terms of sale are as follows: FIFTEEN PER CENT. down, TEN PER CENT. in six months, TWENTY-FIVE PER CENT. in one year, TWENTY-FIVE PER CENT. in two years, and TWENTY-FIVE PER CENT. in three years. One per cent. per month interest will be charged on all deferred payments.

J. E. McComas will be on the grounds daily to show the land to those who desire to examine the same up to the day of the sale.

During the sale free transportation will be furnished those in attendance, from the cars to the lands and return, and reduced fare for the round trip will be secured on the railroad from Los Angeles and return.

TEMPERANCE.

Believing that the sale and consumption of spirituous and malt liquors in the settlement would be productive of much evil continually, and no good, the Association will insert a clause in all deeds prohibiting forever the sale of intoxicating drinks, as a beverage, on the lands sold.

Plats of the lands and further information can be had by calling at the office of the Association, 1½ SPRING STREET, LOS ANGELES.

The Los Angeles Immigration and Land Co-operative Association
